

NEC dvLED solutions:

Direct View LED Kitted SKUs

NEC has created LED installation kits that include all of the key components needed for a video wall built with dvLED.

These kits feature a standard 16:9 aspect ratio and include the LED controller, installation frame and even spare parts for service.

110", 137" and 165"

1.2 – 3.8mm

Direct View LED Digital Poster Series:

75" 1.9mm and 2.5mm A Series Indoor Digital Poster

The NEC A Series LED poster is designed to provide attention-grabbing, high contrast images at nearly any viewing distance. The 1.9mm or 2.5mm pixel pitch model delivers vibrant and colorful content visualization and is ideal for viewing from 4-10 feet away. The A series comes with a floor stand, wall mount, hardware for hanging, and multiple displays can be cascaded together.

- LED-A025I • LED-A019I

NEC also offers dvLED solutions for custom applications. Please contact your NEC rep for more information.
