

Sony EZ-2-Connect Packs

The Easy Way to Get Connected - Simple Installation for PTZ Cameras

EZ-2-Connect™ Packs Power, Video and Control Solutions

Installation headaches are a thing of the past when you combine a high-quality, reliable Sony PTZ camera with a CAT5e/6 cabling kit. Ideal for videoconferencing, faith-based communities, healthcare, education, and government, the EZ-2-Connect PTZ package provides quick and easy installation of SRG, and BRC PTZ cameras with a Sound Control Technologies Cable Connection Kit.

Benefits

Combining a Sony powerful PTZ camera with one or two standard CAT cables, depending on the kit, you can easily control and power Sony PTZ cameras plus save time and money on long distance installations *up to 300' over CAT5e/6 cable).
