

Solution Overview

Crestron Flex Room Solutions

In partnership with AVI Systems and
Microsoft Teams

The best thing about work is working together. **Let's make it easier.**

Crestron Flex Room Solutions are powerful meeting room solutions that empower hybrid teams. Whatever the size of the end-users organisation, you can offer them a solution that fits perfectly into the way people work together.

Command the Room

End-users can create the optimum environment for collaboration: dim the lights, lower the blinds and change the temperature without leaving their seat.

One Touch Meetings

An intuitive user experience that enables customers to contribute easily and at the touch of a button.

100% Scalable

With packs designed for small, medium and large rooms, Crestron Flex Room Solutions will help you continuously support customers as their businesses' evolves.

Give everyone a voice

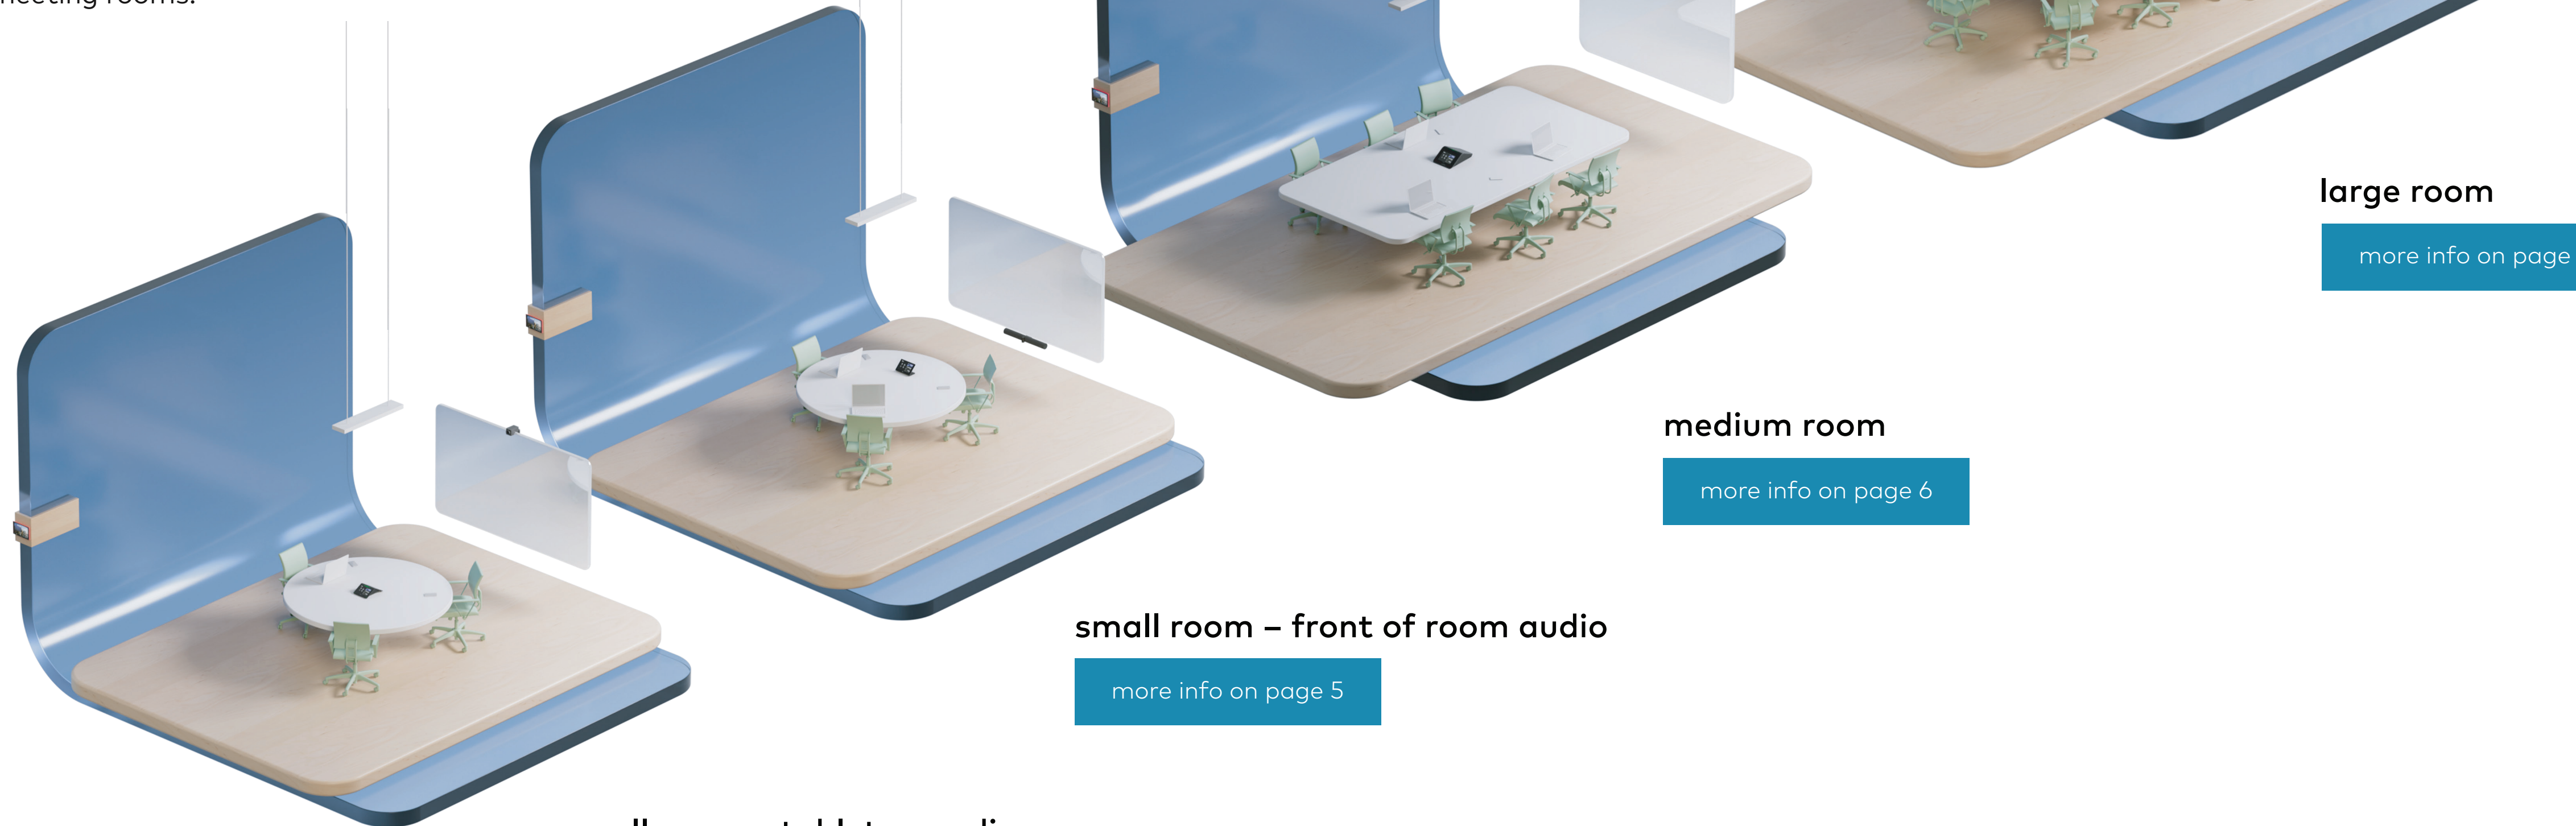

With Microsoft Teams® software built in, Crestron Flex Kits integrate immediately into the end-users' way of working. Intelligent video and high-fidelity audio ensure every member of their dispersed team can share ideas seamlessly.

Maximize Room Uptime

Give end-users the power to centrally control and monitor all of their devices to keep meetings running smoothly and consistently. No matter how many locations they manage.

A solution for every space

Achieve best in-class-collaboration with a kit of just 5 products & services. Learn how Crestron Flex cutting-edge meeting kits fit your needs, wherever you meet. Here you can find our solutions for small, medium and large meeting rooms.
