Why the LG CreateBoard™

Make strong connections.

Help teachers enable true connections with their students. Because with the LG CreateBoard and cloud collaboration capabilities, inspiration is at their fingertips. Keep them connected to their passion and easily send files across all linked devices.

Create a secure environment.

Online security measures and screen lock function help protect lesson plans and let creativity shine without distraction. Inspire endless imagination and seamless learning.

Access more.

Intuitive features, like advanced eye care and virtual access let, you create an inclusive, accessible classroom for all—so you can keep students and teachers engaged for hours.

Expand your ecosystem.

ConnectedCare DMS

Empower students and teachers to collaborate from the cloud. Share notes, lesson plans, and imagination with ease—from virtually anywhere. Plus, simplify IT and manage everything from a centralized dashboard.

Why Buy LG CreateBoard?

- Ability to view, utilize, and control both the Android and Windows side of the panel, simultaneously
- Enhanced security thanks to updated Android OS
- Web-based Device Management & Control including Simple Content Broadcast and Remote Access Features
- Screenshare with touch back control to support mobility
- Operating System Agnostic
- Portfolio from 55" to 98"

Ready to create lasting impressions that go beyond the classroom?
